About me

I'm Full stack .net developer with 6 year of professional experience in C# Asp.net 9, Angular, react, Javascript. Have also good experience in Cloud computing like AWS, Azure. My aim is to build my career as a software architect.

Certification

- Completed certification with the score of (814) - [AWS Certified cloud practitioner](#)
- AWS certified cloud quest : Cloud practitioner – [Digital badge](#)
- Next target -> currently learning - Azure developer associate, Aws solution architect.

Experiences

- **Senior Full stack .Net Developer, Roche Pharma Malaysia (June'25 – Running)**
Working Domain – Roche Microservice SCOT analysis
 - o Works in supply chain management system & worked as a fullstack developer.
 - o Implemented event-driven architecture using Apache Kafka and RabbitMQ
 - o Deploying and managing containerized applications using **Kubernetes**.
 - o Maintained jira, Azure devops & worked with agile approach completing sprint planning.
 - o **Tech used – .NET 9, Angular 20, PostgreSQL, Apache Kafka, RabbitMQ, Unit testing (xUnit), Microservice architecture, AI prompt, Claude, Cursor, Codex, Azure devops, API integration, Agile, Javascript, Test automation, Playwright, python automation tool.**
- **Software Engineer, Nifty coders (IQVIA Fortune 500 company) (Mar'24 – June'25)**
Working Domain – IQVIA Healthcare data analytics
 - o Maintaining communication with onshore and working with developers on remote location.
 - o Worked as a Full Stack .Net Developer on Multiple projects.
 - o Written unit tests and BDD test to ensure code maintainability.
 - o Worked with agile approach and maintained jira properly
 - o **Tech used – Microservice, .NET 8, Angular 16, PostgreSQL, MongoDB, Clean architecture, nUnit, BDD Specflow, AWS Lambda, Docker, EF core, Linq, Azure logic app.**
- **Software Engineer, Kaz Software (Aug'20 – Feb'24)**
Working Domain – Unicef, HATIL (Manufacturing), Care MIS, Stakeholder management
 - o Contribute as a full-stack developer and worked on complex business area.
 - o Leading a team with agile and interacting directly with PM to manage project.
 - o Successfully integrated 3D modeling using threejs.com and implemented map integration through the OpenStreetMap API.
 - o Used node.js for creating some web jobs, retrieve from external api and trigger lambda function
 - o Maintained full team to give support of technical problem.
 - o Builds some automation tools with python for manufacturing.
 - o **Tech used - .NET 7, Javascript, React, EF Core, AWS Lambda, AWS Eventbridge. Serverless application, Azure service bus, Razor, Linq, PWA, Stored procedure, Azure, Powerapps, Power automate, Azure logic app, D365 CRM, MSSQL.**

Professional Skills

- ❖ Framework : C# .Net 9 , .Net 6 , .Net core 3.1 , Angular, React, Javascript
- ❖ ORM : ADO.NET , EF Core
- ❖ Design Pattern : Builder , Singleton, Prototype , Unit Of Work , Repository , Factory.
- ❖ Project management: Git , SVN , Gitscrum , Jira, Trello
- ❖ Database Knowledge: MS Sql server, MySql, NoSql , Mongoddb , PostgreSQL
- ❖ OOD : Factory, Refactoring & Code smell .
- ❖ Testing Framework : Unit testing, NUnit, moq, Shouldly, Bdd specflow.
- ❖ Architecture : N tier , Onion, Clean architecture, Microservice
- ❖ Others :Mediator, CQRS , AutoMapper, SignalR, RabbitMQ, Linq, T-SQL
- ❖ Cloud : Azure service bus, Aws eventbridge, IAM, AWS SQS, Azure function
- ❖ Others : API Integration, Azure devops,
- ❖ Domain : Manufacturing, Ecommerce, Healthcare, Airlines, Supply chain mgmt.

Projects

- ❖ **IQVIA (<https://www.igvia.com/>) (.Net 8,Angular, Azure)**
 - IQVIA is a clinical research organization Architected and deployed highly scalable, event-driven microservices on the IQVIA platforms using Kubernetes, Kafka, and .NET, Angular to process petabyte-scale healthcare datasets for global clinical intelligence.
- ❖ **HATIL Manufacturing (<https://hatil.com>) (.Net 7 , NextJs , AWS)**
 - HATIL is a fast-growing Global Furniture Brand with customers and connoisseurs around the globe. The brand presents an impeccable range of wooden furniture products manufactured from the best-sourced materials.
 - **Tools & Technologies:** .NET 7 | Next.js | NopCommerce fully customization | AWS EventBridge | Software Infrastructure | AWS Lambda | Entity Framework (EF) Core | React | Linq | Manufacturing automation
- ❖ **Unicef MIS (.Net core 3.1, Angular 8, PWA , EF Core)**
 - We have build UNICEF's MIS education system to support Rohingya refugee's to build a better world for everyone. refugee children living in Bangladesh camps are receiving education and other facilities throughout the app. It's mainly for data collection and plan some projects and executes it in a schedule instances.
 - **Tools & Technologies:** Onion architecture | Microfrontend | .Net Core 3.1 | Angular | EF Core | Angular PWA | Authorization (JWT policy based) | Automapper | Pipes | Interceptors | Factory | T-SQL | Fluent validation | SignalR | Long polling | AWS SES, S3, Ec2 | Mongoddb
- ❖ **Software Company Profile Listing Project (C# with ASP.net Core)**
 - (Link: <https://github.com/zahidbiscj/ProfileListingProject>)

Education Qualification

Degree	Passing Year	Institution Name	Grade
BSC. in CSE	2020	Bangladesh University of Business & Technology(BUBT)	3.78/4.00
HSC	2015	Milestone College , Dhaka	4.56
SSC	2013	Bangladesh International School and College , Jeddah , KSA	5.00
